**Subject:** Microsoft Settlement

The proposed settlement is a joke, as anyone in the computing field knows. Microsoft gets to grab yet another monopoly market (schools) at NO REAL COST TO THEMSELVES. This is hardly a punishment or restriction -- it's an enhancement to MS's existing market monopoly!!

Please STOP this bogus settlement from going through. It hurts consumers AND it hurts MS shareholders, who must bear the losses when MS's image goes into the toilet from being allowed to be the 800 lb. gorilla.

K.V. Moffet
